NPI. Recommendation sent to Board for April meeting. FYI.

EFDA training programs. The committee voted to send this information to the Board for its May agenda.

Draft EFDA application. The committee reviewed the draft application and made some corrections.

Referral from Dental Board. The Board asked the committee to research and make a recommendation into whether Public Health Status and school based registered dental hygienists should be able to write scripts for fluoridated toothpaste. The committee will research and also check with the Pharmacy Board.

New business – The committee discussed the dental assisting rules. It was felt that much of this is outdated now and perhaps they should be registered with the state. The committee will ask the Board if they would like them to look into the current rules and make recommendations.
